

**DIRECTORY
OF
COMMUNITY, SPORTS & ARTS FACILITIES
IN
COUNTY WEXFORD
2010**

Wexford
County Council

Foreword

On behalf of the Wexford County Council, I welcome this first edition of the Directory of Community, Sports & Arts Facilities 2010.

A local facility is very often the lifeblood of a community, it provides a focus for social gatherings, a space for activities and helps develop a sense of ownership and pride in an area. The aim of this directory is to provide groups, organisations and individuals within County Wexford with information on the facilities available in their local area, promote usage of the facilities and encourage local communities to get involved in activities in their area. I think it will be invaluable for anyone working or living within County Wexford.

I thank everyone involved in the production of this document in particular: Sports Active Wexford; the Arts Office of Wexford County Council; and County Wexford Community Forum; who worked so hard on the Audit of Community, Sports & Arts Facilities 2008 which provided the information for the Directory.

I also acknowledge the facilities themselves who grasped the opportunity to be involved in the audit and provided the information so willingly, many of whom are volunteers, I praise your efforts and am sure that this directory will benefit you and your facilities.

Cllr. Jim Moore
Chairman
Wexford County Council
April 2010

Introduction

Welcome to the first Directory of Community, Sports & Arts Facilities for County Wexford. This facility directory provides information on Community, Sports & Arts Facilities in County Wexford

The facilities in the directory are grouped into the four County Electoral Areas for ease of use:

- (i) Enniscorthy;
- (ii) Gorey;
- (iii) New Ross; and
- (iv) Wexford.

Many new community facilities have been built and improvements have been made to existing facilities across the county in recent years, and this Directory aims to be the starting point for publicising the resources available on our doorstep, and increasing their usage.

The Directory also aims to recognise the significant voluntary effort without which many of the facilities would not be in existence. Each listing in the Directory demonstrates the substantial effort of the people within that community who build, maintain and manage the facilities on a daily basis, thereby ensuring that the facility is available for the existing community and for future generations.

Inclusion in the directory is optional. While every effort has been made to include all relevant Community, Sports & Arts Facilities within County Wexford in this directory, we cannot guarantee that all facilities are represented. There is a form at the end of this booklet that can be completed to add a new facility or change the details of an existing facility. It is intended that this booklet will be updated on a regular basis to ensure the accuracy of details. Therefore, we encourage those facilities not included to forward their details as soon as possible to ensure inclusion in future editions. This directory represents the information forwarded to us and held at the time of going to print and we cannot accept responsibility for information or circumstances changed in the interim period.

There is an online interactive map facility available on www.wexford.ie which includes much of the information in this directory and also includes directions to each facility. This is continually updated and for open and public use by anyone interested in the information.

If you have any comments, observations or improvements to this Directory, please contact us- we welcome your suggestions.
